100 MEN WANTED

On the Island of Kauai, we are The Leader Clothing. We sell the latest up-to-date goods at reasonable prices. And since you have 10 to 25 per cent on every suit, please from \$10 to \$25.

Mail orders promptly attended to.

Wanted parties to sell and type suit our goods on the Island of Kauai.

THE LEADER
CLOTHIERS

FORT STREET, NEAR BERKELEY

KAUAI'S TEMPLE OF FASHION

THE largest independent general merchandise store on Kauai. We take an immense amount of pride in this plain, solid statement. There is not a man on Kauai who does not know that when he buys anything at one of our stores the goods are going to be exactly as represented and the price a little lower than he can get anywhere else, and he knows, too, that he is going to get a square deal.

Grocery Department

Quality counts. Yes, quality counts, every time. This is demonstrated in the rapidly increasing demand for our

PURITAN BUTTER

the best butter ever made. Choice dairy butter. Butter so sweet and delicious in flavor that everybody wants it. Better get some; you'll find it far above the butter you get most places.

CANNED VEGETABLES

Canned vegetables fresh from the garden. It really is delightful to have for dinner these days, vegetables like those we get in the early spring. Every can is guaranteed. That means bring it back and get your money if dissatisfied.

TABLE DELICACIES

Table delicacies bargains. Remarkable August and September offerings. Our table delicacies are the leading feature of our grocery department. They are of specially fine grade and are going at prices that would make them remarkable values even if they were of ordinary grade.

OUR QUICK DELIVERY

A big, modern Buick truck, delivers your order in less time and in better condition than any other store on Kauai.

Eleele Store

J. I. SILVA, Proprietor.

TRADE MARK REGISTERED
THE ANVIL

Indicates a steel shoe for children. A substantial steel shoe in style and make shoe. High or low cut, K&L or O&L styles, button, one strap, or lace.

Try a pair and prove what we claim.

McINERNEY SHOE STORE
HONOLULU

Kauai's Young People
"Playing Ship"

"O Charles," said Little Willie to his big brother, "tell us some way to play. Mary and John and I are tired of everything we know."

"This ship," said Charles, "put pieces of wood in the ditch and see them float. That is only for babies."

"No, I did not mean that way. Build of you be captain of a ship and carry freight and passengers to other places."

"All right, I'll be captain of the Australia," said Willie. "I'll be captain of the Australia," said Mary.

"That goes to Australia and that is further than San Francisco. And it goes to Vancouver too."

"And I'll be captain of the China. It goes to China and Japan, and they are farther yet," said John.

"All right, captain," said Charles. "Where are your ports? Let this box in the middle be Honolulu."

"Then where will San Francisco be?"

"That mango-tree," said Mary. "No," said Willie, "that's west of the box. San Francisco is not west of Honolulu."

"The side of the house is east of the box," said John. "San Francisco will have to be by the window."

"Aye, aye, sir," said Charles.

"Now where is Australia?"

"It is southwest of the Hawaii Islands," said John.

"How far?" asked Charles.

"As far as San Francisco is?"

"Farther," said Willie. "I think twice as far."

"Well, where shall we put it then?"

"That way is west," said Mary.

"And that way is south," said Willie.

"Southwest is half way between," said John pointing with his finger.

"How far is it from Honolulu to San Francisco, that is from the box to the window?" asked Charles.

"Step it off, Willie."

"Twenty-two steps," said Willie.

"How many steps then to Australia?"

"Forty-four. It belongs as right under this tree."

"Which way to China?"

"West," said Willie.

"South of west," said John.

"Yes, north of west, just as San Francisco is north of east. How far?"

"About the same as Australia," said John. "I'll step it off. There is the place, there isn't any thing here."

"Put this broken plate there," said Willie. "Is that you know. Now we are ready."

"But you haven't put in any place for Vancouver," said Mary.

"Sure enough," said Charles.

"Where is Vancouver?"

"North of San Francisco."

"Then the further window will do very nicely for it," said Charles.

"Here we go," shouted Willie running to the San Francisco window.

"Toot-toot-toot," he called.

"All aboard for Honolulu."

"Then he ran to the box. 'Toot-toot-toot,' he cried again.

"What steamer is that?" asked Charles.

"Australia, Captain Willie."

"How long since you left San Francisco?"

"Six days."

"Then John came through. 'Toot-toot-toot,'

"What steamer is that?"

"China, Captain John, five days out from San Francisco."

"Does the China run faster than the Australia, John?"

"I don't know, but I can run faster than Willie."

"Better watch the newspapers and find out. Where is the China going?"

"Hongkong and Yokohama."

"All right. Good-by, captain."

"Good-by. Toot-toot-toot."

"Toot, toot, toot" from the Australia.

Then Mary came from Vancouver and went to Australia. And they ran back and forth having a gay time with their "toots" and sometimes coming very near collision.

The India-Rubber Man

Many years ago a strange-looking man was sometimes seen in the streets of New York. His cap was made of India rubber. So was his coat. He wore a rubber vest. Even his necktie was of India rubber. He wore rubber shoes in dry weather. People called this man "The India-rubber Man."

His name was Charles Good-year. He was very poor. He was trying to find out how to make India rubber useful.

India rubber trees grow in America. The juice of these trees is something like milk or cream. By drying this juice, India rubber is made.

The Indians in Brazil have no glass to make bottles with. A long time ago they learned to make bottles out of rubber. More than a hundred years ago some of these rubber bottles were brought to this country. The people in this country had never seen India rubber before. They thought the bottles made out of it by the Indians, very curious.

In this country, rubber was used only to rub out pencilmarks. That is why we call it rubber. People in South America learned to make a kind of heavy shoe out of it. But these shoes were hard to make. They cost a great deal when they were sold in this country.

Men tried to make rubber shoes in this country. They got the rubber from Brazil. Rubber shoes made in this country were cheaper than those brought from South America. But they were not good. They would freeze off if they were as hard as stones in winter. There was no use of it. In summer they would melt.

Good-year was trying to find out

a way to make rubber better. He wanted to get it so that it would not melt in summer. He wanted to get a rubber that would not get hard in cold weather. The first rubber coats that were made were so hard in cold weather that they would stand alone, and look like a man.

Good-year wanted to try his rubber. That is why he wore a rubber coat and a rubber waistcoat and a rubber cravat. That is why he wore a rubber cap and rubber shoes when it was raining. He made paper out of rubber, and wrote a book on it. He had a door-plate made of it. He even carried a cane made of India rubber. It is no wonder people called him the "India-rubber Man."

He was very poor. Sometimes he had to borrow money to buy rubber with. Sometimes his friends gave him money to keep his family from starving. Sometimes there was no wood and no coal in the house in cold weather.

But Good-year kept on trying. He thought that he was just going to find out. Years went by and he still kept on trying.

One day he was mixing some rubber with sulphur. It slipped out of his hand. It fell on the hot stove. But it did not melt. Good-year was happy at last.

That night it was cold. Good-year took the burned piece of rubber out of doors, and nailed it to the kitchen door. When morning came, he went and got it. It had not frozen.

He was not sure that he was on the right track. But he had to find out how to mix and heat his rubber and sulphur. He was too poor to buy rubber to try with. Nobody would lend him any more money.

STEAM ENGINES and BOILERS

His family had to live by the help of his friends. He had already sold almost everything that he had. Now he had to sell his children's books to get money to buy rubber with.

At last his rubber goods were made and sold. Poor men who had to stand in the rain could now keep themselves dry. People could walk in the wet with dry feet. A great many people are alive who would have died if they had not been kept dry by India rubber.

You may count up, if you can, how many useful things are made of rubber. We owe them all to one man. People laughed at Good-year once. But at least they praised him. To be "The India-rubber Man" was something to be proud of.

With a bit of sunning his eye,
After passing of a cloud,
When a fit of laughter hits ye
An' yer spine is feelin' proud,
Don't forget to up and fling it
At a soul that's feelin' blue,
For the mind that ye sling it
It's a beamin' to you.

Representative W. J. Sheldon who is engaged in the awa root business, was in town Friday, and reports the industry flourishing. The market price of the root at present is three hundred dollars per ton, with prospects for an advancement. Mr. Sheldon has a movement on foot whereby a large quantity of the plant will be planted on the mauka lands, and be made to pay a good return on the land within five or six years. There is a growing demand for the root throughout Europe and the United States, and from indications, the scheme of planting for the future is to be treated with considerable interest.

Rev. Mr. Olesen of Honolulu, came up on the Kinau Wednesday morning.

Mrs. J. Young of Honolulu is visiting Garden Island friends.

FOR SALE—Yost typewriter, good condition good as new. For demonstration and further particulars apply to THE GARDEN ISLAND office.—tl.
